Rowing, writing, painting,
reading and visiting guest
lectures about neuro
psychology treatments.

REFERALS

Available on request.

Profile

I am a passionate and enthusiastic student with a broad interest and a great ambition, especially in the field of child neuropsychology. As a self-motivated student, I see a challenge in everything. "I can't" does not appear in my vocabulary. "That's what I'm going for", that's my credo!

Write a short description of your skills and abilities. Answer 3 basic questions: Who am I? What is my ability? What is my goal? Match this with the vacancy/employer that you are applying to.
